AMENDMENTS

OPTIMIZE GROWTH

ORCHID MIX

SOIL FOR ORCHIDS

BLEND:

Composted Forest Material, Coarse Peat Moss, Perlite, and Sand

SIZE OPTIONS:

- 0.5 (1/2 cubic foot) cu ft bags/ 70 per pallet

BENEFITS:

- Helps plants anchor within their environment
- Provides quick drainage
- Improves airflow
- Ideal for top dressing planting areas in the garden
- Does not breakdown rapidly

BEST USE:

Designed to give your orchids the proper amount of drainage and moisture retention to optimize growth and flowering.

APPLICATION USAGE:

.5 CF will fill 2-4 4" plants or 1 (1) gallon plant
1 CY will fill 25+ (1) gallon plants
